What's Growing?

So much! Pretty much everything? Our peas will be flowering soon and there are lots of unripe strawberries beginning to grow!

Updates / Notes from Jacob

- It's hot out! I have water bottles available in the garden. Please take care of yourself while out in the garden
- Ava planted beans and they are growing! This means the soil is warm enough to try planting tomatoes, cucumbers, squash, beans, pumpkins, basil, and watermelons!
- I discovered we have 3 species of swallows flying around the garden! Tree Swallows, Violet Green Swallows, and Barn Swallows

Reminders

- Please keep all areas tidy and put away tools/empty out wheelbarrows when you finish using them.
- Tools and other garden materials should not leave the garden space.

Comments?/Clarifications?
