

# From the Garden

2026  
5/25-5/31

## Updates & Reminders

- Class time on Monday in the garden has changed from 10am to 4:30pm to accommodate different schedules.
- We will begin harvesting produce for the kitchen on a weekly basis
- Any projects/participant plots that have been untouched will be cleaned up after this week. I will be placing notes on these spaces so you know to get in touch with me about them.
- I'm going to be adding more signs around the garden to make it clear how different spaces/tools/etc. should be used to ensure they are used safely and appropriately.
- We will begin sowing seeds so we can sell small plants at Farmers Markets.
- I will be starting a Garden Leads program for people to earn additional gift cards through taking on more responsibilities in the garden. I will be reaching out to those who have spent a lot of time with me in the garden for this program
- All items in the garden are property of VetREST. All items made by participants are property of the participant. If an item does not belong to you, do not touch it.
- If you would like to begin a specific project, please check in with me first so I can help set you up for success.
